

Amendment  
Greg Northrup  
Serial No. 10/830,126

**IN THE CLAIMS:**

1. Canceled.
2. (Presently Amended) The firearm support system of ~~claim 1~~ claim 21, wherein the firearm support system pivots relative to the fixed structure.
3. (Presently Amended) The firearm support system of ~~claim 1~~ claim 21, wherein the support element is flexible.
4. (Presently Amended) The firearm support system of ~~claim 1~~ claim 21, wherein the extendable arm is telescopic.
5. (Presently Amended) The firearm support system of ~~claim 1~~ claim 21, wherein the extendable arm comprises a plurality of rotatably connected arm segments.
6. Previously Cancelled.
7. (Presently Amended) The firearm support system of ~~claim 1~~ claim 21, wherein the plurality of rest members are attached to at least one flexible elongated fibrous element.

Amendment  
Greg Northrup  
Serial No. 10/830,126

8. (Presently Amended) The firearm support system of ~~claim 1~~ claim 21, wherein at least one of the rest members has a closeable opening to store a plurality of securing elements.
9. (Previously Presented) The firearm support system of claim 8, wherein the securing elements are screws.
10. (Presently Amended) The firearm support system of ~~claim 1~~ claim 21, further comprising a screw driver head fixedly attached to a portion of the extendable arm.
11. (Presently Amended) The firearm support system of ~~claim 1~~ claim 21, wherein ~~the at least a portion of~~ the extendible arm has a projection and the support attachment member is configured to receive the projection in a pivotable manner.
12. (Presently Amended) A firearm support system comprising:  
an extendable arm, the extendable arm having a first end configured to engage a support structure; and  
a support element secured to a second end of the extendable arm, the support element having a predetermined fixed length extending from the extendable arm and having a plurality of rest members fixedly attached thereto.

Amendment  
Greg Northrup  
Serial No. 10/830,126

13. (Original) The firearm support system of claim 12, wherein the first end is a rounded portion with threads to engage the support structure.
14. (Original) The firearm support system of claim 12, wherein the first end has a projection to engage a holder that is attached to the support structure.
15. (Previously Presented) The firearm support system of claim 14, further comprising an attachment member to engage a fixed structure and configured to accept the projection on the first end of the extendable arm.
16. (Presently Amended) The firearm support system of ~~claim 1~~ claim 21, wherein the support structure is a tree.
17. (Presently Amended) The firearm support system of ~~claim 1~~ claim 21, wherein the support structure is a tree stand.
18. Canceled.
19. (Presently Amended) A firearm support system consisting of:  
an arm configured to be pivotally attached to a support structure and to extend in a generally horizontal direction away from the structure; and

Amendment  
Greg Northrup  
Serial No. 10/830,126

~~two support elements~~ ~~a support element~~ fixed to one end of the arm, the ~~two support elements~~ ~~support element~~ having a plurality of rigid rest members spaced from one other along at least a portion of the ~~two support element~~ elements.

20. (New) A firearm support system comprising:

an extendable arm having at least one end, the at least one end have a single terminus;  
two support elements attached to the at least one end of the extendable arm adjacent the single terminus and having a plurality of rigid rest members spaced from one another along at least a portion of the two support elements, each of the rigid rest members attached to each of the two support elements; and

a support attachment member to engage a fixed structure and configured to accept at least a portion of the extendable arm.

21. (New) A firearm support system comprising:

an extendable arm having at least one end;  
a support element attached to and extending from the at least one end of the extendable arm, the support element having a predetermined fixed length extending from the extendable arm;

a plurality of rest members fixedly attached to the support element and spaced from one another along at least a portion of the support element; and

Amendment  
Greg Northrup  
Serial No. 10/830,126

a support attachment member to engage a fixed structure and configured to accept at least a portion of the extendable arm.
